Founder @The Petirrojo | Web, AI/ML & Web3 Systems Developer |
Data, Games & Visual Systems | Vice President @SMEHS IT Club
Jamshedpur, Jharkhand, India

Summary

, '

I am pursuing my Senior Secondary Course in Pure Science under CBSE from St. Mary's English High School, Jamshedpur driven by a strong interest in technology, innovation, and research-led problem solving. I build at the intersection of Web Development, AI/ML, and user-centric design, with 5+ years of hands-on experience translating ideas into scalable digital solutions.

My work extends into game design, data analysis, and open-source contribution, supported by ongoing learning in research methodology and business analytics. Alongside technology, I leverage visual storytelling and narrative thinking to communicate ideas with clarity and impact.

Also, capturing the essence of building something of my own, currently working in development of The Petirrojo and its branches.

Leadership, to me, is execution with accountability. I currently serve as the Vice President of Information & Technology Club, SMEHS Jamshedpur and have held formal student leadership roles across CBSE institutions, contributing to collaborative, impact-driven initiatives.

I believe in building before speaking, leading by action, and learning through collaboration.

Experience

The Petirrojo

Founder

April 2024 - Present (2 years 1 month)

Jamshedpur, Jharkhand, India

Founder & Content Manager overseeing digital services and product strategy, operating as a self-employed professional and managing brand presence as LinkedIn Page Administrator.

YouTube

Content Creator

March 2024 - Present (2 years 2 months)

I create and deliver content on technology, education, and entertainment, blending research, creativity, and audience-centric storytelling.

WordPress

Blogger

January 2024 - Present (2 years 4 months)

As a blogger, I create and publish content on technology, stories, and lifestyle, combining research, creativity, and personal insight.

Information & Technology Club, SMEHS Jamshedpur

2 years

Vice President

May 2025 - April 2026 (1 year)

Jamshedpur

I lead technical operations and team coordination for institutional events and interschool fests, serve as the joint authority for design and content approvals, and head events, logistics, and digital outreach. I drive innovation through web development, AI/ML initiatives, advanced presentations, visual design, and emerging technologies, ensuring excellence, precision, and impact across all club engagements.

Member

May 2024 - May 2025 (1 year 1 month)

Jamshedpur, Jharkhand, India

I actively contribute to presentation design and handling, web development, data engineering, AI/ML development, visual design, and gaming initiatives, with a strong interest in Web3 technologies and innovation-driven projects.
